Communal integration management (KIM) in the District of Recklinghausen

We offer counselling for all immigrants, regardless of how long they have been in Germany, where they come from or how old they are.

We advise on all matters concerning integration
such as

- school, training
- language
- housing
- family
- employment/unemployment
- health/illness
- naturalization
- residence status
- leisure, recreation
- help with applications and forms.

Integration counselling

We assist you with all the matters and topics that concern you.

Together with you, we develop ideas and solutions and accompany you at all stages of your integration. We will support you if many problems need to be solved at the same time and different legal areas, such as school, foreigners' registration office, language course provider, job centre or youth welfare office, are involved.

We would be pleased to inform you about existing support services and projects in your area and to cooperate with them.

The Kommunales Integrationsmanagement (KIM) aims to provide tailored services to people with a history of immigration, new immigrants or future immigrants to North Rhine-Westphalia in order to facilitate their integration.

We will, in particular, support you in cases where responsible offices and legal circles have changed in order to achieve a complete transition. People with a history of immigration who have been living here for a longer time can be included in the offer as well.
